STRADDLING FREE COINAGE

Cleveland Trying to Recover Ground Lost by His Anti-Silver Utterances.

Hopes to Make Himself Solid with the South and West by Fathering Ex-Secretary of the Treasury Fairchild's Idea.

GETTING ON THE FENCE.

Cleveland Trying to Straddle the Silver Question-His Latest Scheme. Special to the Indianapolis Journal.

WASHINGTON, June 13.-It comes in private mails from New York that Mr. Cleveland will attempt to guide a compromise on the silver question when Congress convenes, and the flood-tide of bilis is open to the cranks who are to control the next House. Mr. Cleveland is trying hard to head off the change in sentiment on the question of his nomination. He wants the nomination very much, and he fears a solid South and an incorrigible West on the financial question. His idea is somewhat like that proposed recently by his ex-Secretary of the Treasury, Mr. Fairchild. It is the free purchase but not the free coinage of silver. He wants a scheme which will buy the bullion so long as it re-mains popular, but stop when sentiment calls a halt. He would coin when there is a demand and it is at par, but shut down altogether when there is evidence of a corner or a movement from any foreign na-tions indicating a disposition to impover-ish our supply of gold. This would make silver a nonentity as a political factor. It would give Mr. Cleveland and his party another opportunity to straddle the ques-

All propositions of this character contemplate the placing of the coinage question wholly within the discretion of the Secretary of the Treasury, and they are therefore out of the question so far as Congress is concerned. Several attempts have been made during the past few years to enarge the purchase of silver bullion, and all have been turned down without consideration if they in any degree gave the Secretary larger discretionary powers. Silver men especially deplore this one thing of making uncertain the quantity purchased or the breadth of coinage. That is the one thing they demand shall be definite. Mr. Cleveland again shows his inutility.

HAS KEPT HIS WORD.

Mr. Porter Started Out to Make a Good Recerd in the Census Bureau and Has Done So, Special to the Indianapolis Journal.

Washington, June 13 .- "If I am made Superintendent of the Census I shall have but two objects in view in trying to achieve a reputation for myself and serving the government. They shall be to make the most complete and comprehensive census ever prepared for the least possible cost, and to demonstrate that one man looks upon the position for something else than a salary of \$5,000 a year."

This is what Mr. Robert P. Porter said to your correspondent some time before he was called from the editorship of the New York Press to begin a line of duties which are, probably, as vexatious as those of any found under the federal government em-That Superintendent Porter has achieved his sim there can be no doubt. He has besten all records before him. By the end of July he will lay before the President a complete compendium of the eleventh census—at least three years in advance of the time it has ever been done by any other Superintendent. Of course, the work in the Census Bureau is not all done, and there will be much of a clerical character to do for two or three years; but when the compendium is complete the work remaining will consist of putting result of the vast labor in field and bureau into shape for printer-laying before the councountry the result of the census-taking. Mr. Porter may remain here some years before resuming his duties in private life, but the reputation he has made will cling to him throughout life. What he has accomplished will no doubt be pointed to for very many years by officers in other departments as the results of unselfish determination As Mr. Porter said, he did not take the ofice merely to draw a salary, for he could get a larger one, much easier, in private life. Few people have any idea what perplexities a Superintendent of the Census has to meet and overcome in order to be successful. The repression of the political influence brought from men in Congress and elsewhere in the appointment of nearly fifty thousand enumerators and almost four thousand clerks in the bureau here is nothing in comparison to the annoying suggestions and influences in the performance of routine and other duties. Mr. Porter, who is physically as well as mentally a very strong man, came near being broken down in health, working night and day to achieve what he has accomplished. And yet he is not appreciated by his polit ical adversaries. There are pre-eminently four positions

under the government which pay salaries or \$5,000 each which carry with them the minimum of credit and the maximum of duties. They are the Superintendent of the Census, Public Printer, Chief of the Bureau of Engraving and Printing and Commissioner of Pensions, and the President probably has more trouble in keeping itions filled by capable men than any dozen of other offices. They deal with politicians, claimants, labor and jobbers. It is next to an impossibility to please all these elements. And if they are taken by men who simply want the salaries the of lices carry more is the pity for all.

The accomplishments of Superintendent Porter has called attention again to the fact that a man who accepts a position in any degree executive in character earns his salary if he fills it well. Another fact is becoming apparent in this same conneced upon for the least moral support in an effort to fill an office acceptably. All of the occupants of the positions named bear testimeny to the fact that the outs are indifferent as to the ins, and that every officer of the government must stand upon his

MINOR MATTERS.

American Consuls to Be Allowed to Issue Certificates of Identity to Chinamen. WASHINGTON, June 13.—The Secretary of State has informed the Treasury Department that the Chinese government, in order to facilitate a more perfect compliance with the terms of the Chinese laws, has authorized the consuls of China in foreign countries to issue in behalf of their government to the exempted or privileged Chinese residents in such the certificate of identity required by Section 6, of May 6, 1882. The Freasury Department has decided that the delegation of such authority to the consuls is not incompatible with the law, and that such certificates will hereafter be accepted

by customs officers. Candidates for Inspector of Mails.

Special to the Indianapolis Journal. WASHINGTON, June 13.-The appointment of an inspector in charge of mails, to succeed E. G. Rathbone. who resigned to accept the appointment of Fourth Assistant Postmaster-general, will probably go to New York. Inspector Wheeler, of that State, has been strongly indorsed by Hon. Thomas C. Platt, and Senator Hiscock, and it is believed he will be appointed in a few days. There are a number of candidates for the place, all of whom are division inspectors. Washington has presented a strong candidate in the person of Inspector King. Pennsylvania has two candidates, Chicago one, San Francisco one and St. Louis one.

The Regulation Flag. WASHINGTON, June 13 .- The following order was issued at the War Department to-day: The field or union of the national flag in use in the army will, on and after July 4, 1891, consist of forty-four stars in six rows, the upper and lower rows to have eight stars, and the second, third, fourth and fifth rows seven stars each, in a

The bag broke open by its own weight and the decay of the canvas, and its contents were scattered among the other bags. It contained one million silver dollars, all but one of which were found, and that one will probably turn up before the examination of the vault is concluded. Otherwise ex-Treasurer Huston will have to make it good.

Big Piratical Fleet in Behring Sea. WASHINGTON, June 13 .- News was received in Washington to-day from Victoria, B. C., that the steamer Danube sailed from Victoria yesterday to meet the sealing fleet off Sand Point, Shamagin islands, and bring back the seal catch already made between British Columbia and Shamagin islands, and which it is reported numbers twenty thousand skins. The fleet, after deivering the catch to the Danube, will sail for Behring sea, expecting, as last year, no interference from any one. The fleet numbers forty-nine vessels.

Mrs. Harrison, accompanied by her grandchildren, will leave here next Thursday for Cape May Point, where she expects to spend the entire summer in the President's cottage. The President will visit his wife at intervals during the summer, and will probably be at the sea-shore most of the time in July and August.
Attorney-general Miller left for Clinton,

N. Y., last night, where he was called by the death of a sister, and will go thence to Indianapolis. Secretary of War Proctor returned to

Washington to-day from West Point, where he went to attend the graduating exercises at the Military Academy. Secretary Foster has informed the Secretary of State, in reply to inquiries that, in his opinion, machines used by artisans in Chempitz, at their homes in the manufacture of hosiery and textile gloves, would be entitled to free entry if the owners immigrate to the United States, as they would

be held to be implements of trade. Acting Secretary Chandler has approved grazing leases on the Crow Indian reservation in Montana amounting to 846,000 acres for \$89,344, the prices per acre ranging from 3 cents up to 3.93 cents.

The Census Office to-day gave out the tobacco statistics of Illinois. The total number of planters in the State during the census year was 2,449; the total devoted to tobacco, 4,155 acres; the total product, 3,042,-936 pounds, and the value of the crop to the producer, estimated on a basis of actual

NINE HOURS FOR JOB-PRINTERS.

Important Action by the International Union -To Go Into Effect Next October.

Boston, June 13.—At the convention of the International Typographical Union today the following from the committee on fewer hours was adopted by a vote of 100

Resolved, That this convention heartily in-dorses a movement regulating the hours of labor in the book and job branches of the printing trade, to be not more than nine hours per day, except Saturday, when not more than eight hours shall constitute a day's work throughout the jurisdiction of the I. T. U., and refer the mat-ter to subordinate unions for ratification, the

same to go into effect Oct. 1, 1891. In order to insure the enforcement of the law by printers a tax was levied for the support of all members of the craft who may be obliged to strike, and a fine of \$15 was imposed upon all printers who failed to obey the nine-hour rule of the I. T. U. A resolution fixing a day's work in all newspaper offices at six hours was defeated. The new officers were then sworn in, after which rotiring President Plank was presented with a handsome gold watch. The convention voted that all money contributed to the Childs-Drexel fund be placed by the secretary in the hands of the beard of trustees. The convention approved of the decisions of ex-President Plank made during the past year. The convention then adjourned to meet in Phila-

delphia in June, 1892. SIR JOHN'S SUCCESSOR.

Hon. J. J. C. Abbott Will Undertake the Formation of a Canadian Ministry.

OTTAWA, Ont., June 13.—The Hon. J. J. C. Abbott has been called upon to form a Ministry, and has undertaken the task. It was in conformity with his Exellency's desire that Mr. Abbott undertook the formation of a Cabinet, and the honorable gentleman's decision was arrived at with a full understanding with those of his colleagues who had been spoken of in connection with the premiership, and with assurances from them of their cordial support.

The names of the members of the government will be made known on Tuesday next when the House of Commons meets again. Mr. Abbott's selection is a great disappointment to the Chaplean wing. Mr. Abbott has been about thirty-five years in public life, and is seventyone years old. After the retirement of Sir Alexander Campbell from the leadership of the government party in the Senate, Mr. Abbott was called to fill the position. He was for two years a Mayor for Montreal and is a director of the Bank of Montreal and of the Canadian Pacific railroad.

Fearful Ravages of La Grippe in China. CHICAGO, June 13 .- W. A. Thompson, an American, who is in the Chinese customs service at Whampon, China, is now in this city. He says that the grip swept over the Chinese empire in February last and thou-sands of the natives died of the disease. It prevailed during a period of thirty days and the death rate was frightful. "The Chinese physicians," said Mr. Thompson, "were unable to say what disease was causing the enormous increase in the death rate and the result was a panic. The Mongolians imagined the evil spirit was demonstrating his wrath by sending a plague among them and they went through the streets of al the large cities beating drums to drum the evil spirit out of the country. During one week in Canton fully ten thousand persons were buried."

Yale Defeated by Princeton. New York, June 13.-Princeton won the intercollegiate championship by defeating Yale in the deciding game played to-day before 9,000 persons. Hundreds of lustyvoiced college men, hailing from the classic shades of old Nassau Hall and the leafy elms of the New Haven campus. with their cousins, and their sisters, and their sweethearts, if they had any, took complete possession of the Manhattan Athletic Club's base-ball grounds this afternoon. Enthusiasm was at fever heat. During the preliminary practicing of the two teams the rival cohorts of Yalesians and Princetonians let their lungs loose upon each other, and the air fairly shook with their howls. The Princeton tiger seemed to have a little the best of it n the overture, but the "Rah-rah-rah!" of Yale came out with a snap every time the yellow striped animal from Jersey lifted up his voice. Colors were fluttering gaily everywhere. All the young women present displayed the blue or the orange and black, according to their sympathies, and hundreds of little flags and canners waved enthusiastically whenever there was anything done on the diamond that called for recognition or approval. It was evident that there was more Princeton money in the crowd than the friends of the blue men were willing to bank against. Young secured the victory for Princeton, pitching a wonderful game in spite of indifferent support. His batting was also one of the principal features of the con-test. Bowers was hit hard, but Yale's good work kept down Princeton's score. Party feeling ran high throughout the game, and the noise made by the admirers of the two teams was almost deafening. Score:

Rey Del Rey and Kingston Win the Chief Events-Diablo Ready for the Suburban. MORRIS PARK, N. J., June 13.-Fully fifteen thousand persons were present here to-day, and they were treated to a series of surprises that were anything but pleasant, The weather was all that could be desired, the track was in first-class shape, and the card offered was a more than ordinary good one. The two stake events, the Bowling Brook handicap, for three-year-old, and the Anticipation stakes, for two-year-olds, both witnessed the downfall of redhot favorites, and the book-makers reaped such a harvest as rarely falls to their lot. Russell, the favorite for the bandicap, was beaten on his merits. but St. Florian, the favorite for the Anticipation stakes, was defeated through the stupidity of his rider, Littlefield, and the superb jockeyship of Garrison on Nomad. St. Florian had the race won, when Littlefield took a short nap, and then Garrison. fairly lifting Nomad off his feet, drew up and won by a short head. Of the other races two were to long shots and two to favorites, but the latter were at such short price that the public had no chance what-

any criterion, he will be knocking at the door of the Suburban finish. Sixth Race-Selling; sweepstakes; for all ages; one mile and a sixteenth. DUBLIN, June 13.—The Irish bishops, finding that the cost of maintaining members of Parliament is a heavy parochial drain, are working to secure the return of wealthy candidates at the next general election, who will form the nucleus of a new Catholie party. The Evening Telegraph, in its issue to-day, confirms the above. The Telegraph also says that the bishops, for various reasons, will not support for re-election several of the present McCarthyite members of Parliament. For West Mayo the bishops propose to nominate Mr. Kelley, a nephew of the Archbishop of Tuam: for South Galway, Mr. Reddington, a wealthy Gladstonian landlord; for Galway Borough, the eldest son of Lord Morris, and for South Mayo, Mr. Bleake, another Gladstonian laudlord. Other dispatches received here from Gua-

temala reveal the true reason of the discontent and revolutionary talk in that country. The restless spirit is occasioned y the elections which are to be held in ctober. President Barillas wishes to make rancisco Anguiano, who resigned from the Cabinet the other day, his successor, but as he is heartily detested the people are not willing to accept the nomination, and, much less, having him forced upon them by Baril-The President has also, by his of forcing laborers to his coffee plantations in the . A. Park. The score was: Kiefers, 20; npon upper districts of the republic without remuneration, got the dislike of al the residents of that locality, and they are not loath to express their dislike to him and use seditious language. Between now and election time a revolution is a foregone conclusion, and unquestionably Barillas will have to seek refuge in some other country. The same dispatch says there is no difficulty between San Salvador and Honduras, and both countries are observing to a letter the recent treaty. The only talk of trouble in either of the two republics is confined to refugees, and is not worthy of consideration.

GENERAL FOREIGN NEWS.

Many Articles of Food to Be Admitted to Peru Free of Duty. PANAMA, June 13.—The President of Peru has issued a decree admitting free of duty into the republic the following arand Eastern points by way of Chicago that are equal to the combination of rates ticles: Live sheep and cattle, dried meats, salt beef, dried, smoked or pickled fish, wheat and corn, potatoes and all other cannot take any other course under the agreement, and in giving this authority to vegetables, eggs, cheese, chestnuts, peas, beans, rice, grape seed, herbs and spices. London, June 13.-The Paris correspondent of the Times says that the decision to prosecute the Panama canal management is regarded as a weak measure, and it is thought will complete the ruin of the enterprise. There is a general feeling of regret that M. De Lesseps is compelled to undergo such treatment at the close of his patriotic and useful life. Another dispatch says it is reported that the Panama canal prosecution is connected with the scheme of a Credit Foncier syndicate to place the enterprise on a new and solid basis to complete the canal. M. Charles de Lesseps, during an interview, said that he had not received any

notification that legal proceedings had been commenced against his father or him-self. He added that if they really had been initiated he would hail them with satisfaction, as they would help to realize his father's plans to complete the canal, and that he would regret the prosecution merely so far as it would be annoying to the family.

The magistrate who has been intrusted with the canal inquiry has summoned M De Lesseps and his son to appear before him on Monday next.

The Charges Against Herr Baare. BERLIN, June 13.—The suit for libel now going on at Bochum continues to excite the country. The prosecution has asked the Esson Tribunal to sentence Editor Fuscangel to two years and Lunemann to one year imprisonment, respectively, for accusing Herr Baare, the director of the Bochum ironworks and the friend and financial adviser of Prince Bismarck, with falsifying his incomes for the purpose of escaping the income tax. The graver charge that Herr Baare for sixteen years has been sending out from his works steel rails which have not been properly tested, and which bear a forgery of the government stamp which could not be affixed by government officials under the circumstances, though declared by the public prosecutor not to have been proved, remains the subject of keen, general discussion.

Brutal Kurdish Chiefs Given More License. London, June 13.-A dispatch from Turkish Armenia says that the Kurdish chiefs. who went to Constantinople by invitation of the Sultan, have sent back the most wonderful accounts of their reception and of the presents and honors they received at Yildiz. By the messengers who were bearers of these accounts, they also sent assur-ances they they could continue to do as they liked with the Armenians, and that they would thereby obtain the favor of the Sultan. This encouragement has produced the intended effect, for the situation of the Armenian population is miserable beyond description owing to the expression by the administration and license given to the

Italy Will Stick to the Dreibund. ROME, June 13.-In the Senate to-day Premier Di Rudini declared that Dreibund imposed no obligations on the countries forming the triple alliance in regard to the matter of armaments. No Italian Ministry, he said, would bind the country in any way to a special military policy. The Dreibund had no aggressive ject. The pacific nature of the alliance had been proved by the ten years of its existence. Disarmament and isolation would bring Italy to ruin, like Venice. "It were better," continued the Premier, "to perish with arms in our hands than to die of in-

Experimenting with Terpedoes.

LONDON, June 18 .- The British Admiralty have decided that the torpedo operations which are to be carried out in the Irish channel this summer shall be of a much more important and extensive character than was originally intended. A plan of operations has been submitted to the Admiralty which it is expected will enable the torpedo staff to conduct a series of evolutions which will illustrate the importance of the torpedo fleet. At this moment preliminary experiments on an extensive scale are being conducted on the torpedo school ship at Portsmouth.

Boastful, But Discreet. Paris, June 13.-La Frato-day publishes an interview that we 'd with Admiral Vallon, of the Fren. lavy, in regard to the statement recen. ly published by the Berlin Vossische Zeitung to the effect that the German squadron was equal to the task of coping with the French squadron in the North sea. Admiral Vallon said: "The French navy is still capa-ble of beating the allied fleets of the Dreibund. If the British navy was against us, however, we could do nothing but re-

treat into port." Effects of the New Immigration Law.

NEW YORK, June 13 .- According to a cale dispatch received in this city, the steamship California has started from Gibraltar with only 153 steerage passengers aboard. The California belongs to the Anchor line and the vessels of the line from the Mediterranean ports carry almost exclusively Italians. The general average number of steerage passengers is between nine hundred and one thousand. The agent of the line thinks the bottom has dropped out of the Italian immigration business. Colonel Weber, Superintendent of Immigration, says that this is due to the vigorous policy that has been pursued for the past few months in barring and sending back all undesirable immigrants. Nearly all of the steamship companies are co-operating in enforcing the provisions of the new immigration laws.

COLORED BOY LYNCHED.

Hanged to a Tree by Tennesseeans on Suspicion of Having Committed a Crime.

BRISTOL, Tenn., June 13.-A lynching occurred here at 1 o'clock this afternoon. An assault was committed on the person of Mrs. John Warren, a respectable white lady, last Sunday morning about 3 o'clock. Officers and detectives worked diligently trying with all their power to apprehend the perpetrator of the deed. Tuesday evening Robert Clark, a colored boy, twenty years old, was arrested on suspicion. Yesterday and to-day his trial came off before Mayor Rader, of Bristol, Va. The evidence was very damaging. He was bound over to court this morning and was sent back to jail. In an bour hundreds of people of all ages and races gathered around the jail. Prominent men of the city made speeches begging the people to let the law take its course, but they were hissed down. At last one man obtained an ax and told the crowd to follow. The jail door was broken down and a stream of angry men filled the jail. The negro was brought out and the excited crowd carried him to Lindsey's, a mile from town, and swung him to a limb of the nearest tree. His body hung four hours, when it was cut down by the coroner's jury. The negro, Clark, was a desperado, having served a term in the Tennessee and also the irginia penitentiaries.

About the Horse.

Philadelphia Record. Nothing on earth will upset a horse's stomach. This is not because the borse does not feel pain, but simply because the horse has no gall-bladder. Has anybody ever seen a horse sick at seaf Has any body ever known an emetic to have any effect on a horse! At a bull-fight a horse may be seen eating with its entrails trailing on the ground. As for the contention that a horse is not as sensitive to pain as man. I think that a horse is probably a great deal more so. There is no living creature, not even a hysterical woman, so nervously sensitive
